AHMED SALEM BAHAMAT

AI & Business Systems Specialist

Riyadh, Saudi Arabia | +966 53 504 4384 | ahmadsa06@gmail.com | linkedin.com/in/ahmed-bahamat | ahmedbahamat.com

PROFESSIONAL SUMMARY

AI & Business Systems Specialist based in Riyadh. Currently runs day-to-day ERP operations and builds process automations at Numo Al-Aali Training & Education, taking new systems from requirement and workflow design to working implementations on staging. Builds AI-assisted software and business automation using LLM workflows, REST APIs, structured data, databases, and AI coding assistants, with launched solutions across logistics, EdTech, sales operations, and government-tender workflows. A product-management background and seven years in sales add strength in requirements, human-review controls, testing, and working with end users.

SKILLS

- **ERP & Operations:** ERP administration, users, roles and permissions, operational support and escalation, master-data cleanup, process analysis, and user training material.
- **Process Automation:** Collections and commission automation, reporting automation, Excel data processing, and WhatsApp and email integrations.
- **Applied AI:** LLM workflows, prompt design, structured outputs, human-in-the-loop patterns, RAG and AI-agent fundamentals, and evaluation concepts.
- **AI-Assisted Development:** Claude Code, Codex, ChatGPT, rapid prototyping, code review, debugging, and test scenarios.
- **Software & Data:** Python fundamentals, Laravel, PostgreSQL, SQL, REST APIs, data modeling, authentication, and RBAC.
- **Analysis & Quality:** Requirements, workflows and diagrams, user stories, acceptance criteria, edge cases, QA, UAT, and staging validation.
- **Tools & Methods:** Git/GitHub, Jira, Figma, Trello, Agile/Scrum, and technical documentation.

PROFESSIONAL EXPERIENCE

ERP Systems & Operations Officer | Numo Al-Aali Training & Education — Sep 2026 - Present

Marketing Growth & Business Intelligence sector

- Own the first phase of new systems: agree scope with the sector head, break requirements into buildable parts, and prepare workflows, diagrams, and prototypes, then implement them on the ERP staging environment.
- Building collections and sales-commission automations on staging: analyzed how platform payments reach the ERP, verified the quotation commission tab, and encoded commission-eligibility rules.
- Designed an AI-assisted influencer-tracking module inside the ERP, linked to the business-intelligence module, based on the company's past influencer contracts; prototyped it locally with a full system report.
- Run daily ERP operations for the sales and collections teams: users and permissions across the ERP and telephony system, lead transfers, first-line issue resolution, escalation, and periodic status reports to the sector head.
- Built the BI sector's systems roadmap, prioritized and scheduled in the ERP Projects app, and a product-naming unification plan matching platforms, ERP, finance, and marketing to improve reporting quality.

University Sales Supervisor | Numo Al-Aali Training & Education — Aug 2026 - Sep 2026

Product Manager & Junior AI Specialist | Masar Al Safwa Logistics Services — Mar 2026 - Jun 2026

Demo: logistic.ahmedbahamat.com | Staging MVP

- Translated needs from the General Manager and 5 department heads into workflows, user stories, acceptance criteria, permission matrices, edge cases, and staged delivery milestones.
- Designed and built a Laravel/PostgreSQL staging system with 10 role-based access profiles, cross-department request routing, task assignment, authentication, and a courier portal using AI-assisted development.
- Reviewed implementation against documented workflows, tested role permissions and user scenarios, diagnosed defects, and prepared the system for pilot review.

Product Manager & AI Builder | Fragre The World *Project-based marketplace* Oct 2025 - Mar 2026

Product: fragraworld.com | Pre-launch

- Converted buyer and seller needs into product requirements and supported delivery of a multi-vendor fragrance marketplace covering retail, pre-owned products, auctions, payments, and shipping.
- Designed a one-page seller listing flow connected to a structured fragrance library and coordinated API integrations with an external developer.

Marketing & Tender Specialist / AI Builder | Nibras Al Arab Advertising Agency Aug 2024 - Sep 2025

- Analyzed the manual government-tender process, recurring bottlenecks, and areas suitable for AI assistance, and developed the Tarsya AI concept and prototype.

Salesperson | Jibal Asir Establishment Jun 2017 - Aug 2024

- Delivered 7 years of consultative B2C sales through needs analysis, objection handling, and tailored recommendations.
- Used POS, CRM, inventory, ERP, and Excel systems, building practical understanding of business workflows, users, and data-quality problems.

SELECTED AI & SOFTWARE PROJECTS

Etad Hub | *Live logistics automation platform* | etadhub.com

- Built and launched three tools that turn operational Excel exports into restaurant reports, courier KPI cards, and violation notifications; the KPI workflow cut a daily supervisor task from about 30 minutes to under 2 minutes.

Tarsya AI | *AI-assisted government-tender prototype* | tarsya.net

- Built a prototype that converts structured tender and company inputs into draft technical and financial proposal content, with a defined human review and approval step.

Earab | *Live mobile-first EdTech product* | earab.net

- Built an Arabic grammar platform with progressive lessons, full-sentence parsing, partial scoring, instant feedback, gamification, and content-review controls.

Discover | *Working B2B prospecting tool* | discover.ahmedbahamat.com

- Built an access-controlled tool that finds businesses by activity and location, organizes contact data, and supports outreach through WhatsApp and email.

EDUCATION & PROFESSIONAL DEVELOPMENT

- **Bachelor of Law** | Prince Sattam bin Abdulaziz University | 2017
- **Artificial Intelligence: Machine Learning, LLMs & AI Agents** | Hsoub Academy | In Progress
- **AI Product Manager** | IBM / Coursera | In Progress
- **Product Development & Management** | Hsoub Academy | Completed
- **Languages:** Arabic (Native) | English (Intermediate)
